

AIMM President's AGM Message -2022

At the time of writing this message, we are in the midst of organizing the eagerly anticipated International Integrative Medicine Conference, 'Inclusion and Diversity in Healthcare' at the Majestic Hotel Ballroom on 15th to 16th October, 2022. It will be a meeting of the best minds in integrative medicine brought together to form an 'in person' world-class international forum.

Uniting the Integrative Medicine community through education, certification and empowerment are the core objectives of AIMM. Therefore, as to re-establish our last conference and webinar plans, we hope to advance with the education program and certification course on medical cannabis.

Perhaps one of our exciting development is the announcement of the subcommittee of medical cannabis. They will draw out the charter for collaboration, and spearhead roundtable discussions with significant stakeholders.

We are also thrilled to announce that we will be integrating 'Medical Aesthetics' as a vital holistic aspect of wellbeing. The distinction between wellness and health, wellbeing and happiness has to be acknowledged.

"A cheerful heart is good medicine, but a crushed spirit dries up the bone"

Systematically, AIMM evolves to be at the forefront, delivering the latest empirical findings and fresh perspectives by developing effective algorithms that offer patients to discern and then adapt for varying health solutions.

"Mistakes are meant for learning and not repeating"

Hoping to meet with everyone as I certainly miss the camaraderie.

"As iron sharpens iron, so one person sharpens another."

Thank you for your continuous support and valuable friendship.

Yours truly,

Dr. Janethy Balakrishnan
