

AIMM President's AGM Message 2024

I am grateful to all members of AIMM for your valuable support. Over the past year, we have achieved unprecedented milestones such as having our Deputy Prime Minister, YAB Dato Seri Fadillah Yusof and the Swedish Ambassador, His Excellency Dr. Joakim Bergstrom at our official opening.

Additionally, we hosted an epic forum with our former Minister of Health.

These accomplishments stand as a testament to our shared vision and the power of collaboration with the two most established pioneer universities of Malaysia.

Integrative medicine stands at the forefront of healthcare.

Our journey over the past years has been marked by resilience, innovation, and a steadfast commitment to scientific holistic health and wellbeing.

Our collective mission to promote healing, prevent illness, and enhance the quality of life for individuals around the globe is more critical now than ever before.

I am incredibly delighted of the strides we have made in advancing the field of integrative medicine.

From ground-breaking research initiatives to the implementation of patient-centered care models, our organization has been at the forefront of positive change.

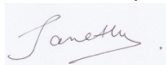

As we navigate the evolving landscape, it is essential that we remain agile, adaptive, and innovative in our approach.

I encourage each one to actively share your ideas, and provide your valuable feedback. Let us continue to work hand in hand. Together, we will reach new heights and create a lasting impact in our community.

With humility comes wisdom

I hope to see all of at our 5th International conference, this year's theme *Healthspan-The Science & Art of Wellbeing*. It will be on July 13th and 14th at the Ballroom, Majestic Hotel, Kuala Lumpur.

Yours truly,

Dr. Janethy Balakrishnan
